THINK BIG

Inside the Colt, the first thing that strikes you is its amazingly spacious interior. It doesn't look or feel like a compact car, it looks and feels much bigger. The second thing that strikes you is its luxury and the attention to detail. Finally, you'll be struck by our designers' ergonomic handiwork: the shape and position of the controls and instruments tell all. But some parts of the interior we've left up to you. So take your pick from the wide selection of stylish and sporty extras to make our designers' Colt your Colt. We offer several leather steering wheels and shift knobs for instance, a sports pedal kit, but also high-tech extras like an integrated satellite navigation system, a radio CD/MP3 player and a Bluetooth adapter. Think big, there's plenty of space for everything.

COMPLETE COMFORT

The Colt is not just big on space, it's big on comfort, too. Flexibly adjustable seats, for instance, provide a level of comfort you'd expect from a luxury saloon rather than a compact hatchback. And the use of the finest materials give the Colt's versatile interior a perfect finish that's sensational to the touch. And to do justice to this well-balanced combination of style and comfort, as well as each driver's individual taste and style, Mitsubishi Motors have developed several practical extras for your daily drive, whether you're out for business or pleasure. Entry guards, floor mats, sunblinds – they are as simple as they are effective. Take a look, they've been tailor-made for the Colt and meet the highest standards in quality. You'll be tempted to take the long way home.

RACING-STANDARD SAFETY & PROTECTION

Mitsubishi Motors takes modest pride in its racing pedigree. After all, Mitsubishis have been winning the most formidable tests of endurance for decades. To win, however, you need first to finish, as they say in the racing world. And the key to finishing is safety. Consequently, each component of each Mitsubishi automobile has safety at the top of its list of design specifications. Still, depending on your needs, you may like to consider some of the extra safety accessories we've developed. Like stylish, fully integrated fog lamps for extra visibility and a range of child safety seats for your younger passengers and rear-parking assistance for safe parking. Maximum safety and protection all round, that's the motto.

RELIABLE COMPANION

Like in safety, you don't need to be tallest in order to perform best. So the Colt has been designed to get the very maximum out of it in practical, everyday use. A versatile interior that offers you flexibility in passenger-seating and luggage-room options is proof of that. And there is more. A towbar or roof carrier in combination with several extension sets makes a mule of it. The Colt is a car you can rely on in any situation: small yet spacious, modest yet striking, robust yet sleek and elegant – the Colt embodies what a modern compact hatchback can be great in.
