## STYLE THAT STUNS

In the Outlander's intuitively designed interior, form and function come together in an ideal union. Soft shapes and curves contribute to occupant physical comfort at the same time they establish a feeling of spaciousness. Controls are located for optimum accessibility, while other features, like air vents, are placed in countering positions, producing a sense of balance. To this, you may add your own distinct style by choosing among an array of thoughtful accessories, from silver coloured interior accents to a DVD rear seat entertainment system or of course, audio/navigation equipment.
